

WA COUNTRY BUILDERS WIN BIG AT HOUSING AWARDS!

WA Country Builders are proud to share their great success at the 2021 Great Southern Housing Industry Association (HIA) and Master Builders Western Australia Awards.

The Great Southern team were honoured to bring home four awards. With local Albany display home, the Milpara Estate successfully winning across a number of categories. Including the Golden Key Award for Display Home of the Year, Best Display Home, Best Contract Home (\$350,000-\$400,000) and Excellence in Brick and Block Paving.

Levi Evans, Regional Manager for WA Country Builders Great Southern was humbled by the awards. "It really puts into perspective the work that our team puts in day to day. Acknowledgment of 'a job well done' is sometimes conveyed less than it should be in many

businesses. Awards like this provide tangible feedback for the individuals involved. We are proud of the work we do and are honoured to collect the awards."

The success of the team has come during what have been challenging times for builders in WA. "Looking at what builders, the building industry in general, and new home owners have had to face in the last 18 months, it's really pleasing to see that there are great homes still being built. The award evenings from both the HIA and

MBA shine a light on some great results and its fantastic to have that positivity generated within the industry and amongst the people we build homes for. It's great to see".

WA Country Builders continues to be WA's most awarded regional builder, ensuring quality and workmanship in every build.
